Professional Summary

Lead Frontend Developer, Automation Builder, and Product-Focused Engineer with experience building SaaS platforms, scalable UI systems, and workflow automations across startups and product teams. Strong in frontend development, product ownership, UI/UX design, AI-assisted development, and system optimization using Vue, Next.js, React, TypeScript, and n8n.

Experienced in PR reviews, release management, Git workflows, Cypress testing, and translating business problems into practical, maintainable solutions with strong execution and product thinking.

Core Skills

Frontend: Vue.js, React.js, Next.js, TypeScript, JavaScript, Tailwind CSS, Vuetify, HTML, CSS

Automation: n8n, Make, Zapier, OpenAI API, REST APIs, Webhooks, AI Chatbots

UI/UX & Product: Figma, Product Ownership, Sprint Planning, SaaS UI/UX Design

Testing & Engineering: Cypress E2E, Unit Testing, Git, PR Reviews, Release Management

CMS: WordPress, Elementor, Wix, Stripe, Supabase

Professional Experience

Alphas

Junior Frontend Developer → **Lead Frontend Developer** → **Product Owner**

Remote | Jul 2023 – Dec 2025

- Led frontend development for Octo, managing frontend architecture, PR reviews, releases, testing quality, and production stability using Vue, Apache ECharts, GridStack, and Grid.js.
- Built internal workflow automations using Make and n8n, including a Slack-to-ClickUp bug reporting system adopted company-wide.
- Promoted to Product Owner for Ripple, handling sprint planning, backlog refinement, UI/UX design, and feature prioritization across five connected products.
- Supported Ripple V2 migration from monolith to microfrontend architecture and led product alignment for the Archera partnership.

Ardexa.ai

Lead Frontend Developer

Remote | Oct 2025 – Apr 2026

- Led frontend and full-stack development using Next.js, Tailwind CSS, and Supabase for TicketDesk, RentWise, and LexaDraft.
- Built rental qualification systems, contract template builders, and centralized ticketing workflows with strong API and backend integration.

Flexiwork + Freelance

Web Designer / Developer + Automation Builder

2023 – Present

- Build WordPress, Elementor, and Wix websites focused on responsiveness, Stripe integrations, SEO basics, and conversion-focused design.
- Created AI-powered workflows, WhatsApp bots, Telegram bots, Zoom-to-YouTube automations, and reporting systems using n8n, Make, and LLM integrations.

Selected Work

Octo, Ripple, RentWise, LexaDraft, TicketDesk, Pacific West Diagnostic Imaging, CzechVibes, Cocoon, Arnis Scoreboard

Education

Bohol Island State University – Main Campus

Bachelor of Science in Computer Engineering | 2023

Certifications

FinOps Certified Practitioner | Vue Masterclass | Tailwind CSS Masterclass
